Dr.-Ing. Judith Elsner, KSOP Managing Director
Prof. Dr. Ulrich Lemmer, KSOP Coordinator at the
Light Technology Institute (LTI) / KIT
Dr. Olga Franco, Coordinator Euro photonics
Around the World at almost the Speed of Light

Perform your Doctorate Program at two European high-level research institutions and manage coming challenges in Photonics Engineering, Nanophotonics and Biophotonics.

The Euro photonics Doctorate Program is based on a cooperation of excellent institutes and universities, with the goal to involve PhD students in cutting-edge research projects benefiting from the variety of the partners.

PhD candidates work under a joint supervision by one project-leading and one collaborative laboratory in two states. At least, one semester will be spent in the co-supervising institution. The PhD research work is accompanied by two week training units per semester in scientific and key competences as well as conference participation.

Program & Mobility Structure

- PhD project in cooperation of 2 institutions
- Management modules & key competences: Transferable skills related to research & industry
- Scientific modules: Participation at international meetings, conferences & schools
- Technical modules: Scientific knowledge for research conduction

Key Data and Benefits

- 3-years research in Optics & Photonics
- Double Doctorate degree
- Modular training in management technical, scientific and key competences
- Scholarships available
- Working language: English
- Prerequisite: M.Sc. degree in engineering or natural sciences
- Application on open positions

Salary & Financial Support

- Monthly salary fixed by employment contract
- Support of 600 € for European and 3,200 € for non-European students

Student Voice PhD Erasmus Mundus

“I’ve attended a lot of KSOP modules, scientific, technical and management, and was in a lot of events for PhD students. The common features of all the modules are really high-quality organization and support of students, not standard and useful content and, sure, the best lecturers I can imagine.”

Irina Fateeva
