

Time Table Master Optics & Photonics
4th Semester - Summer Term 2021, lecture period: April 19 - July 31, 2022
Pentecost vacations: June 06 - 11, 2022

Regarding the teaching mode in summer semester 2022 - please check on ILIAS and in the Campus Management System.

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:00 - 09:30					
09:45 - 11:15	Start: April 25th Automotive Vision Lauer, Peter online			Start: April 23th Laser Metrology Eichhorn online	
11:30 - 13:00				Laser Metrology Eichhorn Irregular double lecture, for more info visit http://www.ite.kit.edu/lehrveranstaltungen_LM.php	
14:00 - 15:30		Start: April 19th Digital Signal Processing in Optical Communications Randel online			Start: April 29rd Automotive Vision Lauer, Peter every other week online
15:45 - 17:15				Start: April 21th Digital Signal Processing in Optical Communications (exercises) Randel online	
17:30 - 19:00					

Elective courses from 4th semester

X- Ray Optics

Date according to prior agreement with the students. Please contact Dr. Arndt Last until April 30th, 2021 for registration and scheduling (arndt.last@kit.edu).

"Quantum Optics at the Nano Scale: Basics and Applications" will not take place in the summer semester 2021.
